SPRING 24

ONE DREAM ENDLESS OPPORTUNITIES

I didn't grow up dreaming of a desk job. I always wanted to have the kind of lifestyle where I could earn on my own terms, and spend as I wanted to. PartyLite has made that happen for me.

I was drawn to the amazing quality fragrances, and convinced by the fact that it's so affordable to start. I didn't have to invest, and I earn from my phone in the hours I choose for myself.

CANDLE CARE

Taking care of your candles keeps them burning stronger for longer. Get our tips for keeping your fragrance just as good from the first light to last.

THE BASICS OF CANDLE CARE

- Use a holder made from heat-resistant materials.
- Place candles at least 2 in apart.
- Avoid direct sunlight or other heat sources.
- Place candles on a flat and level surface.
- Avoid drafty areas.

TRIMMING YOUR CANDLE WICK

- Trim wicks to .25 in, every time you light.
- Tealights and votives don't usually need trimming.
- If a 'wick blossom' develops remove the very end, and relight the candle.
- If your candle's wick is too short, check online for tips to fix it.

AVOID UNEVEN BURNING

- Always let a full pool of wax form before extinguishing.
- Remove traces of soot and dust before lighting.
- Trimmed wicks will help avoid tunnelling.
- Avoid moisture. Use a soft cloth to wipe it away before you light.

CARING FOR FLAMELESS FORMS

- Ensure your wax melt warmer is dust free before use.
- Let melts cool before changing them out.
- Never use more than 4 Fragrance Flame melts at once.
- To ensure the freshness of fragrance, it is recommended to swap your SmartBlends™ and SmartScents regularly.
